Fairfield ranked one of best suburbs in Ohio

The City of Fairfield is one of the best metropolitan area suburbs in Ohio, according to recent studies conducted by GOBankingRates.com and SmartAsset.

A comprehensive study by GOBankingRates.com analyzed the cost of living, quality of schools, and safety in suburban areas surrounding the biggest cities across the country.

Factors included median home list prices and monthly rent, annual cost of groceries, health care, utilities and transportation, and violent and property crimes.

Fairfield came in as the number one suburb of Cincinnati in this review, and number five in Ohio overall.

The SmartAsset study ranked Fairfield as the number three easiest place in Ohio to sell a home, based on the number of days homes spend on the market in the area. At the time of the report (August), homes in Fairfield were selling within an average of 37.2 days, according to the study.

Chick-fil-A to open in November

The much-anticipated grand opening of the new Chick-fil-A is expected in November. The restaurant, located at 6305 S. Gilmore Road in front of Meijer, has been under construction since early spring.

"We appreciate the opportunity to partner with the City and look forward to serving the community delicious food in an environment of genuine hospitality when the doors open," said Jackie Jags, Chick-fil-A Inc.

Managers of the new Fairfield location are looking to hire 120 employees, including both full-time and part-time, for a variety of positions. Those wishing to apply can visit www.CFA-FF.com for more information.

The Urology Group moving to Village Green

Substantial interior renovations recently began at 925 Deis Drive in Village Green for a new office location for The Urology Group. After recently expanding from three doctors to five at its Fairfield

Township location, a larger space was needed.

With nearly 40 physicians on staff and 11 offices throughout the greater Cincinnati region, The Urology Group is one of the largest and most recognized groups of urologists in the nation. It treats conditions involving the bladder, kidneys, prostate and urinary tract for men and women, including prostate, kidney, bladder and testicular cancers.

Physicians and staff will continue to treat patients from Fairfield, West Chester, Hamilton, Springdale and even Eastern Indiana from this office.

"As the Fairfield community has expanded, so has our local patient base," said Earl Walz, CEO of The Urology Group. "We are proud to be able to provide much-needed urologic services to this community, from our physicians office as well as with surgery privileges we enjoy with Mercy Health Fairfield Hospital and West Chester Hospital."

The new Fairfield office is expected to open in early 2020. To learn more or schedule an appointment, visit www.UrologyGroup.com.

Presented by Fairfield Footlighters

By Lauren Gunderson

If you liked the movie *Hidden Figures*, you won't want to miss this "luminously beautiful play" that will change how you look at both the heavens and the earth.

FAIRFIELD FORWARD

Comprehensive Plan nearing completion after final public open house

The year-long process to update the City's Comprehensive Plan included a final open house for public input on the draft plan on Tuesday, Sept. 24. Dozens of citizens and key stakeholders came to the open house at the Community Arts Center to study the plan and give feedback. The last milestone in this process will be City Council's adoption of the plan.

This plan that has been in process since August of 2018 will guide how the City of Fairfield will be developed and redeveloped in the future. Input has been received from citizens, elected officials, City staff, and business and community leaders in a variety of ways over the past year.

For more information and to review the plan, visit www.fairfieldforward.com.

The City of Fairfield has long enjoyed its position as a quality, well-balanced community located just north of I-275, about 20 miles from Cincinnati. With its regional convenience and small-town charm, Fairfield continues to attract residents, visitors, and businesses to the area. As a result of this growth, 87.3 percent of the 20.85-square-mile total area has been developed, leaving minimal remaining land for new development. **Fairfield Forward provides a critical, strategic framework for future growth and community resources** to ensure a high quality of life can be sustained for years to come

HOW WAS THIS PLAN CREATED?

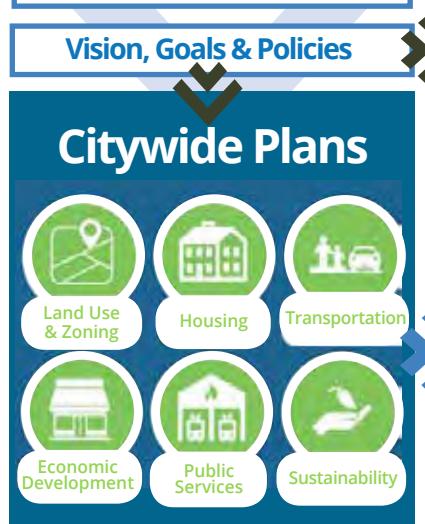

This plan was developed from August 2018 to September 2019 with input from City staff, elected officials, community members, a steering committee, and four small area plan committees that met regularly to guide the development of the citywide and small area plans. Comments from community members are highlighted throughout this report in the "What We Heard" boxes like the one shown.

Popular comments received during the planning process include:

What We Heard

- 1 Continue to provide excellent public services
- 2 More sidewalks, trails and paths are needed for better overall connectivity throughout the City
- 3 Better property maintenance is needed
- 4 Design guidelines are welcomed in certain areas to provide for a more visually appealing, cohesive environment
- 5 More sit down dining options
- 6 Limit use on car lots
- 7 Encourage single-family residential development over multi-family residential
- 8 Provide additional recreational opportunities
- 9 Target "blighted" areas for redevelopment, including northern Route 4 and the former Forest Fair Mall
- 10 Safer pedestrian routes to schools

Implementation Strategy

Key Future Land Use Changes

- 1 Assigning agricultural areas to the appropriate land use for future growth
- 2 Implementing a mixed use category to permit a mix of residential, office and commercial uses
- 3 Establishing a mixed use industrial category to permit a mix of low intensity industrial, office and commercial uses
- 4 Eliminating the heavy industrial land use category to prevent potentially noxious and incompatible uses
- 5 Identifying four small area plans that provide more detail on development and redevelopment activities

Leaf collection to start November 4

Annual leaf collection is scheduled to begin Monday, Nov. 4, 2019. This program provides free leaf collection services to residents who place leaves in rows or piles between the curb and sidewalk or adjacent to the street in areas not having a curb or sidewalk.

Residents are advised to not place leaves in the street, as gutters and storm sewers can become blocked and cause localized flooding during moderate to heavy rainfall. Leaves should be raked between the curb and sidewalk, or in areas without curb, adjacent to the street.

Residents are also advised to not park in front of or near the piles between the hours of 7 a.m. and 8 p.m. as the trucks/equipment cannot reach those piles and they will be left until the next scheduled collection week. Grass clippings, sticks, limbs or brush should not be placed in with the leaves. These items can clog and damage equipment and injure workers.

CREWS WILL COLLECT LEAVES ON THE FOLLOWING PROPOSED SCHEDULE:

STREETS WEST OF PLEASANT AVENUE:

November 4 - November 8
November 25 - November 29
December 16 - December 20

STREETS BETWEEN PLEASANT AVENUE AND WINTON ROAD:

November 11 - November 15
December 2 - December
December 23 - December 27

STREETS EAST OF WINTON ROAD:

November 18 - November 22
December 9 - December 13
December 30 - January 3

Due to the large volume of leaves, crews may run behind schedule from time to time, but residents should have leaves raked to the curbside by the above dates. Residents who have a small amount of leaves, or who do not wish to participate in the program, may find it more convenient to bag their leaves and place them curbside for pick-up on the regular trash collection day.

School Resource Officers support student success

Starting with this school year, the amount of resource officers provided by the Fairfield Police Department in the City's schools increased from two to four.

The School Resource Officers (SROs) Program began in 2000. The operation and development of it is based on input from school administrators, teachers and faculty.

The officers promote school safety by building a positive climate in which everyone feels safe and students are supported to succeed. They are positive role models and encourage good moral standards, judgment, discretion, respect for other students and a sincere concern for the school community. They also provide information on community resources to students and parents.

Officers establish trusting relationships and effective communication with students and their parents as well as school staff.

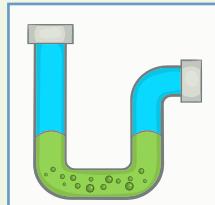

The City has historically paid for these officer positions, but with the expansion to four, the school district will pay half the cost. The total cost to be split between the City and the school district is estimated to be \$504,000 annually.

Survive the holidays without clogging the pipes

Planning to host friends and family this holiday season?

Don't add to the preparation and clean up by clogging the pipes. Here are some tips and tricks:

- Do not wash grease and oils down the drains. They solidify in pipes and cause blockages.
- Minimize the amount of food scraps put into the kitchen sink and through the garbage disposal. This material can also collect in pipes and cause blockages.
- Never put bones, coffee grinds, celery or egg shells in the garbage disposal. Pasta is particularly harmful.
- Never flush wipes (even those labeled flushable), paper towels, or sanitary products down toilet.

Coyote in the neighborhood? Here's what to do

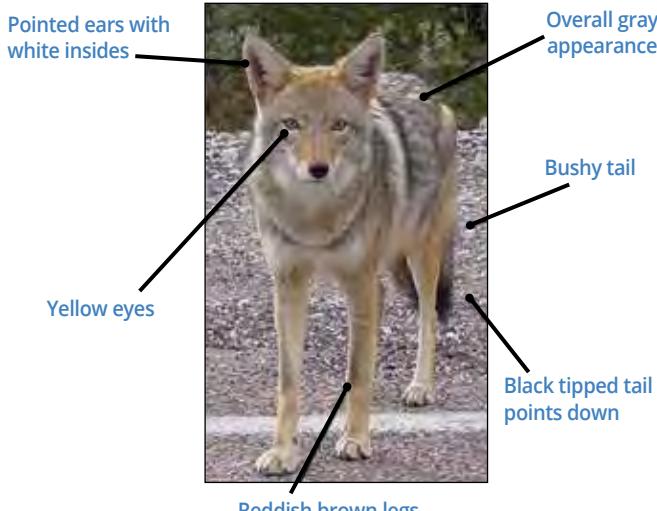

Coyotes are common throughout Ohio's 88 counties and are regularly seen within city limits. We co-exist with them and have for decades without realizing it.

If you spot a coyote on your property, make sure to remove all "attractants" to deter the coyote from returning. This includes removing garbage and pet food before nightfall and cleaning up around the grill. Do not feed coyotes directly.

Coyotes prey primarily on small mammals such as rabbits and rodents. However, interactions with domestic pets do sometimes occur. Keep small dogs and cats inside (especially after nightfall) or leashed when outside. Motion-sensitive lighting tends to be helpful to keep wildlife away from your home.

Occasionally, an inquisitive coyote will stay put and watch you curiously. Make noise. Clap your hands and shout. The coyote will likely move on at this point. If it doesn't, throw objects like rocks at it to scare it away. A coyote that loses its fear of humans could potentially become a threat.

Is it a coyote?

SOUNDS LIKE A PACK OF COYOTES?

LIKELY IT'S ONLY ONE OR TWO

Even though the sounds you hear from coyotes might make you think you are hearing a pack of them, they typically hunt alone or in pairs, not in packs. They use vocalizations as a means to indicate territory and to locate other members of the family unit. Vocalizations include:

- Woof • Growl • Huff • Bark • Yelp • Whine
