Fairfield OH BUSINESS BOOSTER

SPRING 2018

Iwata Bolt invests in Fairfield Facility

Iwata Bolt USA, Inc. has started work on an 80,000 square foot expansion adding to its existing 111,000 square foot facility on Iwata Drive off of Union Centre Boulevard. This expansion represents a \$10 million investment including several new, high-tech pieces of machinery that will greatly increase production and efficiency.

Iwata Bolt is a world-class company that develops, produces, and supplies various kinds of fasteners to the automotive and electronics industries. The Fairfield manufacturing facility is one of five factories in the world and is also the headquarters for US operations.

The current facility opened in 2008 with a focus on automotive customers and contains three departments: US headquarters administration, sales team, and manufacturing. Nobuyuki "Nick" Hiraga is the Vice President of US operations with Yuki Tsuji as Branch Manager and Masato Suzuki as Plant Manager.

"We are really excited about the expansion to our Ohio facility in Fairfield," Yuki Tsuji said.
