

3D Fish Scene

WITH PAPER PLATES

What you'll need:

- 2 paper plates
- Scissors
- Paints (we used blue and green) & Brushes
- Glue
- Green pipe cleaners
- White paper or white pom-poms
- Googly eyes (optional)

Top Plate (frame) -

Cut the middle, flat area out of one plate and paint green

Back Plate (water) -

Paint inside of the whole second plate blue for the water

Make it POP!

To make the fish pop out, cut a thin strip of construction paper and fold it to make a zigzag, attach with glue.

Make it come to life!

- Cut out fish and glue it to the zigzag.
- Fold a few green pipe cleaners in half/quarters creating seaweed.
- Hole punch the white paper to make bubbles
- Glue the top plate around the blue plate.
